6

RFX RESPONSE BY SUPPLIERS

- Alerts to Suppliers for RFX Acknowledgement
- Supplier Response Posting and Doc Uploads

5

RFX APPROVAL AND PUBLISHING

- Scrutiny of RFX Draft.
- Approval and Scheduling of RFX.
- Publishing of RFX

Cimmra®

Intelligent Purchase Requests Handling

PR Handling needs more intelligence than an automatic card dealing machine

The Cimmra® ePS is RPA driven; it analyses PR content to pass it through the right approval workflow – and what's more, even assigns it to the right Category Buyer – based on considerations like:

    a. Item Category

    b. Location of Request

    c. Spend Type (Direct/Indirect/Asset)

    d. Spend Size (Amount involved)

Cimmra® ePS lets you choose making PRs on our platform or keep making them in your ERP or both!

Cimmra®

Easy and Fast RFX Preparation

Cimmra® is all about Ease and Speed with Good Results

- Choose from simple to complex strategic sourcing approaches

- Use predefined templates for common events, or easily create new templates from scratch, even by just copying from an old RFX for new purposes.

- Set rules for the Event speedily by selecting from a pre-defined Bank of Terms.

- Make Questionnaires, Response Grids and Document Upload Sections with utmost ease.

SViQ
Software with Business Sense

Cimmra®

1 Easy-to-Use RFX Templates for company-standard Approaches and Practices

2 Organization-wide Bank of Terms – a repository for quick selection and inclusion from.

3 Cimmra® enables rapid creation of questionnaires with a versatile Question Bank.

AUTOMATION DRIVERS FOR RFX AUTHORING

Cimmra®

Easy and Fast RFX Preparation

Cimmra® Smart Sourcing avoids sifting through exhaustive vendor lists for RFX invitations.

- **It simply provides you with an AI driven Source List of Most Suitable Suppliers for the case, based on aspects like:**

  a. Item Category
  b. Requesting Location
  c. Requested Volume
  d. Expected Deal Size

- **You pick the Suppliers to invite from the Source List: and even new unregistered ones as Ad-hoc invitees for the event!**

Cimmra®

AUTOMATION DRIVERS FOR SUPPLIER INVITATION

1 Autogenerated Source List of most suitable Suppliers considering Item Categories and Location of origin of PR

2 Quick Filters to aid speedy Supplier Selection on Additional Parameters

3 The supplier listing can also have several key details for informed supplier selections.

4 Cimmra sends separate RFX invitations for confidentiality and personalization

Cimmra®

Detailed Response Analysis

Conventional approaches lack the flexibility to consider multile award scenarios holistically

- Cimmra® Smart Sourcing provides you with holistic Qualitative Comparison as well

- Supplier responses against your various determinant RFX Questionnaires can be included in the autogenerated Quote Comparison Sheet

- The QCS can also be exported to global standard spreadsheet formats like MS Excel® for further analysis too

Cimmra® Smart Sourcing saves you a great deal of time and effort by providing you instant online comparison of Supplier Responses against Questionnaires to cover

- Technical Conformity Parameters
- General Suitability Parameters
- Compliance Determinant Parameters
- Service Level Parameters
- Financial Standing Parameters

AUTOMATION DRIVERS FOR RFX RESPONSE ANALYSIS

Unattended Auctions for Automated Negotiations

Conventional negotiations actually hinder the speed of deal closures

- No more countless hours negotiating with each contender separately and repeatedly, with Cimmra® Auctions on your side.

- Simply extend your RFX to a Reverse Auction involving the Shortlist of Suppliers you've arrived at.

- Choose from a variety of Auction Approaches and Settings for negotiations to happen on their own, within the timeframe you decide.

Cimmra®

Cimmra® Auctions

Flexibility and Control

End-2-End Process Management

Global Time Zones and Currencies

Global Flexibilities For International Auctions

Full Coverage Of All Auction Aspects

Cimmra®

Well-Considered Event Awards

You no longer have to settle for going by just Landed Cost ranking

- It was sometimes a toss-up to go simply by either L1 or the best past experience.

- Not any more! Cimmra® ePS Smart Sourcing comes to your aid here, with Share of Business (SoB) combinations to create as Award Scenarios, compare and consider.

- This enables you to take surer, data-backed, informed award decisions.

Cimmra®

Smart Fulfilment

Cimmra® ePS is built to manage a variety of Fulfilment cases like Materials, Services or a Mix of both.

Suppliers can raise ASN for Materials and SES for the Service Supplies they make.

Monitored Shipments

Delayed, damaged or incorrect shipments can be such a hassle.

- **Cimmra® ePS Fulfilment guards you against any shipments botched up in time, items or quantities with its Advance Shipping Note approval workflow.**
  - **Choose if you want only approved shipments made by the Suppliers. Exercise the flexibility to have anything shipped without intimation too, for cases you decide.**

- **Ensures chaos free Warehousing with shipments available when needed without inventory harmony going haywire.**

Cimmra®

Pre-Inspected Item Receipts

Handle cases requiring Pre-dispatch Inspection

- **Cimmra® eProcurement Suite's ASN approval workflow can serve as Pre-dispatch Inspection Requests**

- **Supports cases where only consignments that are scrutinized or pre-inspected at Supplier's premises, are cleared for shipment.**

Monitored Services

Staying in control of service fulfilments can be such a boon.

- **Creation of Service Entry Sheets (SES) by Suppliers allow scrutiny of service fulfilments**

- **Helps you stay on top of Contracted Service fulfilments**

- **Forms basis for settlement of cyclic Service Invoices**

Cimmra®

Quality Checks and Net Receipts

Cimmra® tracks and alerts for abnormal receipts.

- **Rejection/Short/Over Shipment are documented in relevant cases to form basis for Debit or Credit Notes.**

- **Net Receipt is recorded to arrive at pending fulfilments and accrued payable amounts through a multi-way matching process.**
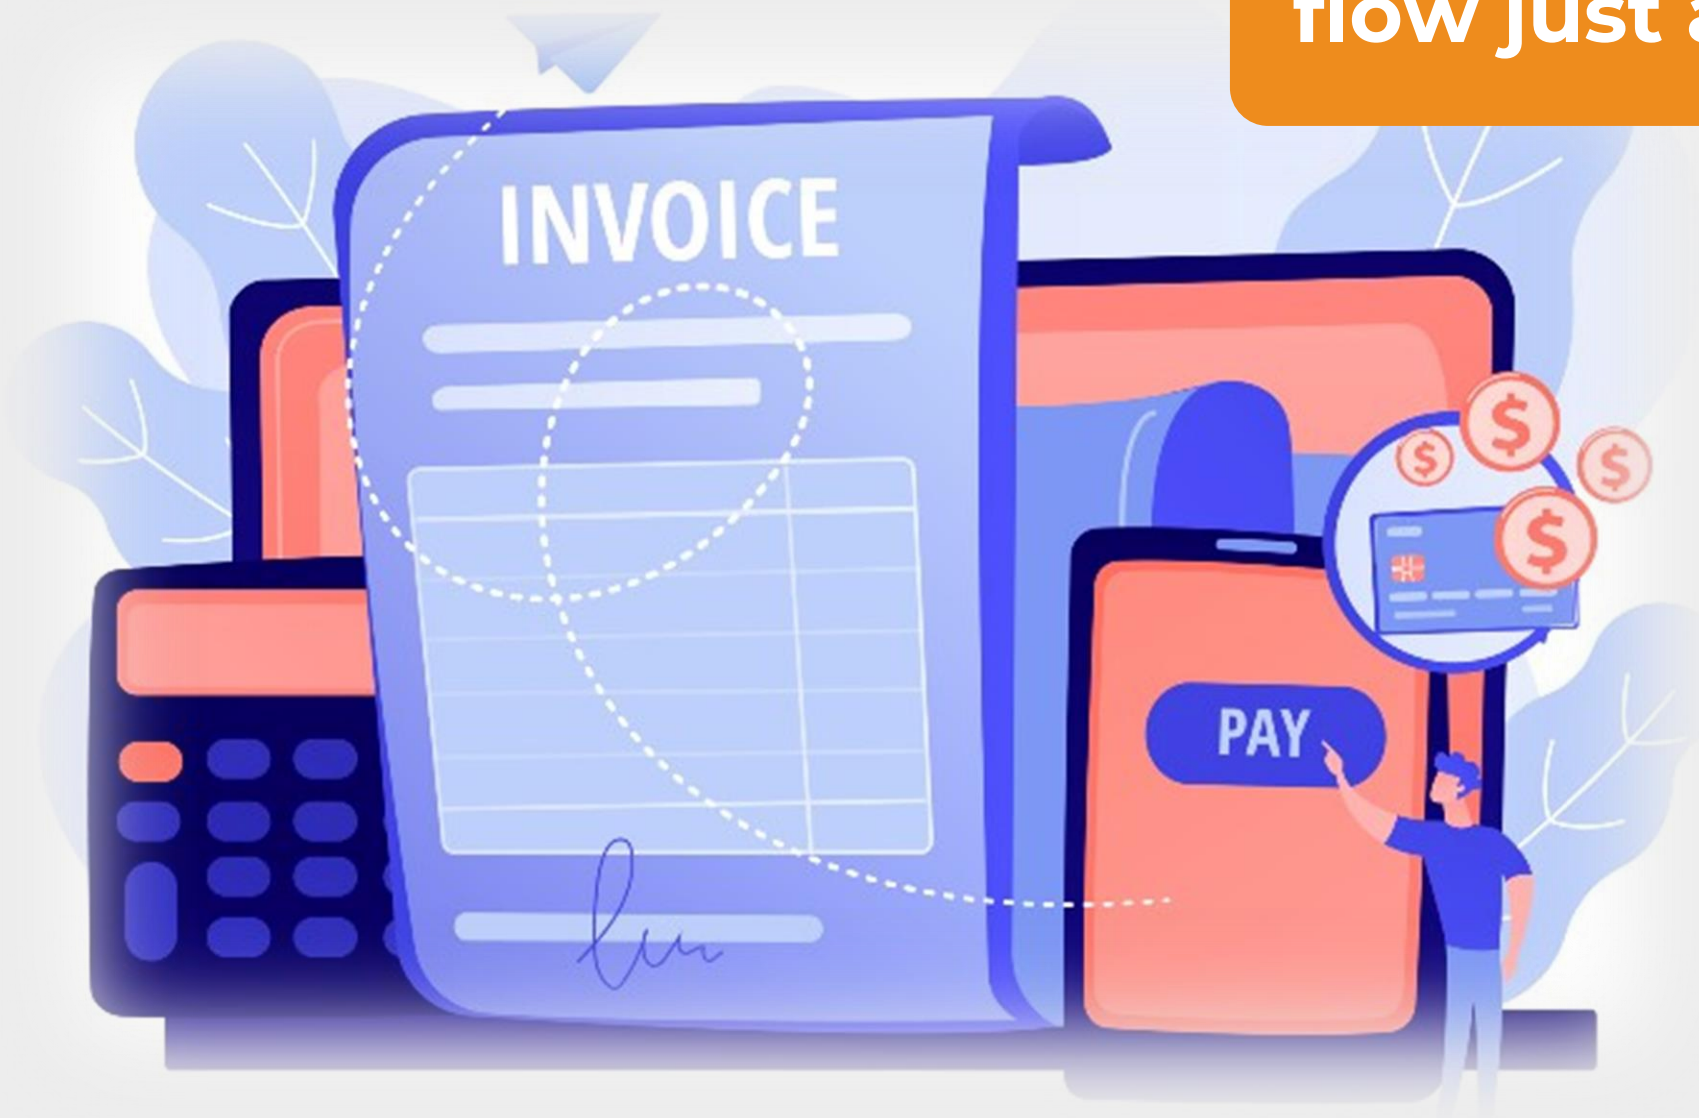

Smart Settlement

Empower your Supplier with Cimmra® ePS eInvoice submissions

Arm yourself with prudent AP management functionalities for accurate and timely settlements

On-schedule Settlements

Early payments can harm cash flow just as much as late ones

- Cimmra® ePS Settlement complete due diligence with in-process queries/responses, support documentation, and multi-level scrutiny and approvals

- Watch out for available Credit Period, create upcoming payment provisions for on-time settlement.

- After all, Cimmra® is all about saving money and adding to Profits!

Supplier Management

Automated Supplier Empanelment Applications, Prudent On-boarding, Efficient Supplier Lifecycle Management.
